

Flooring Sample Test Checklist

Find the perfect flooring for your home. Use this checklist to test your samples in real-life conditions before making your final choice.

Lighting

- ☐ Place samples near a window to see them in natural light.
- ☐ Check under lamps and overhead lights during the evening.

Color Match

- ☐ Compare samples against your walls, trim, curtains, and décor.
- ☐ Make sure tones stay consistent in different rooms.

Furniture Fit

- ☐ Position samples next to furniture and rugs.
- ☐ Ask yourself: does the style complement your home?

Spill Test

- ☐ Pour water, coffee, or juice on samples.
- ☐ Wipe clean—did they stain or resist?

Durability Check

- ☐ Drop keys or slide a chair over samples.
- ☐ Look for dents, scratches, or scuffs.

Comfort Test

- ☐ Stand barefoot on samples. Do they feel soft, firm, or cold?
- ☐ Imagine how they'll feel in everyday use.

Extra Tips:

- Test samples in multiple rooms if lighting varies.
- View them morning and night to see how colors shift.
- Keep samples for a few days—your choice should feel right over time.

Your dream floor is closer than you think—take your time, test thoroughly, and choose with confidence!
